BRAND INTRODUCTION

SPACE is committed to product innovation, promotion, and application in the outdoor advertising industry, striving to become a world leading brand and promoting the high-quality development of the outdoor advertising media equipment industry. We have taken a number of important measures, including continuous technical innovation, category expansion, cost optimization, more efficient services, continuous improvement on customer satisfaction and enterprise competitiveness to accomplish this mission, and to provide customers with solutions to cope with changes.

In the past two decades, SPACE has been an excellent proponent of “Made in China” for a variety of top outdoor advertising providers throughout the world. We

have continuously strengthened our multi-brand enterprise strategy and extended our product line lead by means of value positioning, while constantly updating ourselves to adapt to ever-changing environments and provide higher practical value. This has included more diverse fields of application and a wider product range. SPACE currently has four brands: the “Master” bus shelter, the

“Top” advertising lighting box, the “First” Trivision and the “Gold” column advertising. These products consider meet customer needs through systematic thinking and improvement of all-round service levels in terms of quality, price, service, and speed.

We always put ourselves in our customers’ shoes, in order to truly experience "letting you be happy, worry free and make money". In this way, we are able to realize the brand value and meaning, this is our most important mission and also our most distinctive brand feature - striving to build an outstanding global high-end outdoor advertising media equipment brand!

SOLAR POWER SOLUTIONS

Use energy-saving products to lead the advertising industry trend

“TOP” Advertising Light Box is a brand dedicated to value. Wholly based on technology, process, design, and materials, we at Space seek to improve ourselves and actively adapt to the changing environment. We carry out professional assessments based on local conditions and on the basis of the location and distance of customer Advertising Light Box and the wiring complexity, in order to provide them with solutions in response to changing environments.

With the extensive development of solar technology, a lot of outdoor equipment is now being powered by solar energy. This is a truly green, eco-friendly, and recyclable form of energy. In addition to zero air pollution, zero noise, and zero damage to the environment, it has the following four advantages:

Green and Eco-friendliness

Energy-saving solar energy bus shelter converts sunlight into electricity and thus saves a massive amount of energy. It helps to protect the environment while creating value for customers.

Ease of Installation

Mount the mono-crystalline silicon solar panel on the top of the bus shelter and the inside equipment will working. There is no need for additional cables and wires, making operation and maintenance very easy.

Reliability and Safety

The components of the solar cell set are reliable. Compared with electricity produced by the city grid, Energy-saving solar energy shows a better power. It does not require manual operation after installation, but runs reliably and is very durable.

Excellent Price/Performance Ratio

It features higher power-generation efficiency, large power storage capacity, and an excellent depth of discharge. Under normal circumstances, it can still provide electricity for operation even during successive rainy days. It comes at a reasonable price for its excellent performance, quality, and reputation. This product is most certainly the best choice at a time when we pursue product excellence.

Competitive Advantages

I. Cost: Space is based in Dongguan, a global manufacturing hub, with access to a reliable supply of high-quality raw materials and a mature supplier network, enabling it to adapt to constantly changing customer requirements and reduce costs.

II. Experience: Last 15 years, Space has been specialized in custom-building high-end advertising media equipment such as Trivision billboards, advertisement light boxes, and Unipole billboard. We meet the most important requirements of our customers with the leanest team, the most rational product process, and the most timely assurance measures.

III. Quality: We at Space are well-known for our excellent quality assurance system. Strictly following the ISO requirements, all our employees are highly customer-focused, and meet the high standards and strict requirements needed to ensure that perfect products are delivered at the highest quality.

IV. Reputation: We at Space have a development strategy “based in Dongguan, from which to expand nationwide and go global”. For the past 15 years, our products have been very popular with both domestic and overseas customers, especially our Trivision billboards and advertising light boxes, which have been sold to more than 100 countries and regions.

V. Service: with many years of experience in the advertising market, we at Space have successfully converted the traditional service awareness concept into a total service system that is implemented throughout all of our market operations processes. We have solved customers' actual problems through pre-sales information service, in-sales professional guidance and quality assurance, and after-sales customer visits and follow-up, ensuring that they remain worry-free in conducting their business.

VI. Brand: We at Space keep on improving ourselves, and actively adapt to the changing environment so that our products and services can create more practical value and have a wider scope of application and better application scenarios. We own the following brands: Master Bus Shelter; Top Advertisement Light Box; First Trivision Billboard; Gold Unipole Billboard. Our products are an excellent combination of quality with price and of service with speed. We meet customer requirements through systematic thinking and by improving our overall level of service. We enable customers to experience “making money while staying worry-free and happy!”, and in this way can realize our own brand value and meaning.
